INTRODUCTORY.

1907.

THIS is the twentieth regular annual edition of Husted's Oakland City Directory, and it is presented to the public with the assurance that it is executed by no similar work in America. It embraces all the features found in the largest metropolitan Directories and many other valuable things which are lost sight of in the larger cities of America.

After completing his labors on the 1906 edition of the Oakland Directory, and before the work had been finished by the printers, Mr. F. M. Husted died after having published the Oakland Directory since 1887.

The enormous task of making the directory then devolved upon the widow which, with the rapid influx of population and phenomenal growth of Oakland, has enlarged the work to such an extent that it became too much for any one person, and Mrs. F. M. Husted has associated with her the National Directory Publishing House of R. L. Polk & Co., which has been engaged exclusively in directory making for more than a third of a century. The business will hereafter be conducted under the firm name of "Polk-Husted Directory Co." This consolidation makes one of the strongest directory publishing houses in the country, and brings to the Oakland Directory all the advantages of competent and experienced employees, and a thorough system backed by ample capital, and it is therefore reasonable to assume that the Oakland Directory for 1907 will be found more complete, more accurate and reliable than ever before.

The Polk-Husted Directory Co. will not only publish the Oakland City Directory, but a large number of other city directories throughout California, and will become one of the most substantial publishing houses of Oakland.

It is the intention to send a copy of the Oakland Directory to every directory office in the United States, where it may represent Oakland and its people, its institutions and its citizens.

A directory library will be maintained at the directory office, No. 908 Broadway, Oakland, for the free use of the patrons of this directory and for the public generally. Here may be found the directories of all the principal cities of the United States and Canada.

POPULATION.

Growth in population is the standard measurement of a city's success and it is, therefore, always highly interesting to those who have the welfare of the community at heart. The present population of Oakland will be intensely interesting to the people not only of Oakland but generally to all people in the United States, for the eyes of the world are upon Oakland on account of the wonderful changes that have taken place here.

The United States census gave Oakland a population of 102,900 seven years ago. Oakland has been growing constantly ever since. A year ago it had a population estimated at 140,000. This directory contains 79,115 names of male adults of Oakland, 15,535 for Berkeley, and 11,524 for Alameda. Accepting the prevailing theory that there are three women and children, to every name which appears in the directory, the population of Greater Oakland at the present time is 309,948. This does not include the Chinese or Japanese element.

This wonderful increase in population ranks Oakland as one of the largest cities on the Pacific Coast, and the largest trade center west of the Mississippi excepting St. Louis, and one of the important cities of the United States. This rapid growth is not of mushroom character, but has been wrought by conditions which will necessarily make it progressive. The business of Oakland is resting on a solid, substantial foundation, with one of the finest harbors in the world, midway between the large cities of the Southern Pacific Coast and those of the Northern Pacific Coast, and it must necessarily continue to grow and prosper.

The publishers wish to express thanks for the courtesies extended to their employees and the liberal patronage bestowed upon the work.

Respectfully,

THE PUBLISHERS.

Polk-Husted Directory Co.

POSTAL RATES AND CLASSIFICATION OF MAIL MATTER.

Domestic mail matter, that is, mail matter sent in the mails from some post office within the United States to some other post office within the same, is divided into four classes, as follows:

First-Class Matter.

RATE OF POSTAGE: TWO CENTS FOR EACH OUNCE OR FRACTION THEREOF.

Written matter, namely letters, postal cards, and all matter wholly or partly in writing, whether sealed or unsealed—except as provided below—and all matter sealed or otherwise, closed against inspection, is of the first class.

Postal Cards—No printing or writing other than the address allowable upon the address side; nor may anything except an address label be pasted or attached to any postal cards. The words "to be called for," or any proper description of the person, or place, addressed may be written or printed thereon as part of the address. Any other writing, mark or seal placed on the address side renders it un-allowable except at letter rates.

Private mailing cards—Mailing cards other than government postal cards may be sent through the mails at the rate of one cent apiece, payable by stamps to be affixed by the sender. Written messages may be sent on these cards when they are made to conform to the following restrictions: Such cards must be approximately of same form, quality and weight as the stamped postal cards now in general use, not exceeding 3 1/2 by 5 1/2 inches, nor less than 2 1/2 by 4 1/2 inches. The color of the cards or, and postal cards may be on the message or address side advertisements, illustrations, or other matter printed in black or colors. Ordinary mailing cards, when the message is entirely in printing, are not restricted to the above conditions. They may be of any size, but are not entitled to the words "Post Card."

Second-Class Matter.

Second-class matter is of two kinds. First, that sent by publishers or mail agents; second, that sent by other than publishers or news agents.

RATE OF POSTAGE TO PUBLISHERS AND NEWS AGENTS: ONE CENT PER POUND OR FRACTION THEREOF, TO INDIVIDUALS: ONE CENT FOR EACH FOUR OUNCES OR FRACTION.

Mailable matter of the second-class embraces all newspapers and other periodical publications which are issued at stated intervals and mailed without the conditions named in the statute.

STATUTORY, CHARACTERISTICS, OF SECOND-CLASS MATTER.

First—It must be regularly issued at stated intervals, as frequently as four times a year, and bear a date of issue and be numbered consecutively.

Second—It must be issued from a known office of publication.

Third—It must be formed of printed paper sheets, without board, leather, cloth or other substantial binding, such as distinguish printed books for preservation from periodical publications.

Fourth—It must be originated and published for the dissemination of information of a public character, or devoted to literature, the sciences, arts or some special industry, and having a legitimate list of subscribers.

What is Permissible to Be Written or Printed—The name and address of the person to whom the matter shall be sent; index figures of subscription book, either printed or written; the printed or written name and address of the publisher or sender, or both, and written or printed words or figures, or both, indicating the date on which the subscription to such matter will end; the correction of any typographical error; a mark, except written or printed words, to designate a word or passage to which it is desired to call attention; the words "sample copy," or "marked copy:" and publishers and news agents may enclose in their publication, bills, receipts and orders for subscription thereto.

Third Class—Printed Matter

RATE OF POSTAGE: ONE CENT FOR EACH TWO OUNCES OR FRACTION THEREOF, AND MUST BE FULLY PREPAID BY STAMPS AFFIXED.

Printed Matter—Is defined to be the reproduction upon paper by any process except that of handwriting, or by the typewriter, of any words, letters, character, figures, or illustration, or combination thereof, not having the character of an actual personal correspondence. Seeds, bulbs and scions are included in third-class matter.

Further Points of Definition—Reproductions from originals, produced by minograph or similar mechanical process, easy of recognition, are entitled to pass in the mails in unsealed envelopes as third-class matter, when mailed at the post office in numbers of at least twenty identical copies.

Proof sheets and corrected proof sheets and manuscript copy accompanying the same are rated as third-class matter.

Permissible Writing—Upon matter of the third class, or upon wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text, and may correct any typographical error. There may be placed upon blank leaves or cover of any book or printed matter of the
third class a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter mailed as first class, there must be left on the address side space sufficient for a legible address and necessary stamps.

Fourth Class—Miscellaneous Matter.

RATE OF POSTAGE: ONE CENT FOR EACH OUNCE OR FRACTIONAL PART THEREOF.

Mailable matter of the fourth class embraces all matter not embraced in the first, second and third class, which is not in its form or nature liable to destroy or deface or otherwise damage the contents of the mail bag or harm the persons or animals employed in the postal service, and is not above four pounds in weight for each package thereof, except in case of single books weighing in excess of that amount.

Examination—All matter of the fourth class shall be subject to examination. How Enclosed—Articles of merchandise must be wrapped or enclosed in such a manner that their character can be easily ascertained. In the case of such articles as medicine, powders, tobacco, cigars, fancy soaps and the like, postmasters will accept them when mailed in their original wrappers and so sealed or enclosed as to properly protect the articles, so that each package in its simplest merchandise form or unit of measure may be examined.

Permissible Writing or Printing Upon or with Fourth-Class Matter—With a view to the protection of fourth-class matter prepaid at the proper rate for that class, the sender may enclose any mailable third-class matter, and may write upon the wrapper or cover thereof, or tag or label accompanying the business address, preceded by the word "from," and any marks, numbers, names of letters, for purpose of description, or may print thereon the same and any printed matter not in the nature of a personal correspondence.

Positively Unmailable—Poisons, inflammable or explosive substances and other substances exhalant a bad odor. All alcoholic liquors, live animals or reptiles, dead animals not stuffed, live insects, except bees, comb honey and fruits or vegetables matter liable to decay; also letters, pictures or other articles of obscene or indecent character (sealed or unsealed), letters or circulums regarding lotteries or fraudulent schemes of any kind, and letters or other articles upon the outside of which appears anything of a scurrilous, defamatory or threatening character.

Foreign.

THE UNIVERSAL POSTAL UNION includes nearly all foreign countries. The classification of mail is as follows:

Articles for or from foreign countries, except Canada and Mexico, are classified as "Postcards," "Newspapers," and other printed matter. "Commercial or business papers," and "Patterns or samples." The Rate of Postage to the countries and colonies comprising the Universal Postal Union (except Canada and Mexico) are as follows:

Letters, per 15 grams (½ ounce) 5 cents.

Postal cards, each, 2 cents.

Newspapers and other printed matter, per 2 ounces, 1 cent.

Commercial Papers—Packets, not in excess of 10 ounces, 5 cents. Packets in excess of 10 ounces, for each 2 ounces or fraction thereof, 1 cent.

Samples of Merchandise—Packets, not in excess of 4 ounces, 2 cents. Packets in excess of 4 ounces, for each 2 ounces or fraction thereof, 1 cent.

Mexico and Canada.

Mexico—Matter mailed in the United States addressed to Mexico is subject to the same postage rate and conditions as it would be if it were addressed for delivery in the United States, except that articles of miscellaneous merchandise (fourth-class matter) not sent as bona-fide trade samples, are required to be sent by "Parcels Post." See below.

Canada—Matter mailed in the United States, addressed to Canada, is subject to the same postage rate and conditions as it would be if it were addressed for delivery in the United States. The following articles, however, are absolutely excluded from the Canadian mails, without regard to the amount of postage prepaid, or the manner in which they are wrapped, viz.: All sealed packages other than letters in their usual and ordinary form; all packages (except single volumes of printed books) which weigh more than 1 lbs. 6 oz., or police Gazette, publications which violate any copyright law of Canada.

Merchandise may be sent in the mails to Canada at domestic rates of postage, when not sealed against inspection, subject to the custom duties of that country.

Parcels Post.

Unsealed packages of mailable merchandise may be sent by Parcels Post to Germany, Jamaica, Barbados, the Bahamas, British Honduras, Mexico, the Leeward Islands, the Republic of Columbia, Costa Rica, the Danish West Indies, and Salvador, British Guiana, Windward Islands and Newfoundland at the postage rate of 12 cents per pound.

General Information.

Application for missing letters, papers and packages mailed at Oakland for other postoffices, for mail matter that is held for postage, or for any other reason unmailable, should be made at the office of the Superintendent of Mails.

For orders of second-class matter or for information concerning the same or for letters which the senders desire to recall by telegraph before delivery is made to address, application should be made at the Assistant Postmaster's room.
For stamped envelopes, postal cards, etc., in quantities of 500 or over, application
should be made to the cashier.

Immediate delivery of mail matter by a special messenger may be secured by affixing
a special delivery stamp in addition to the regular postage at any hour
between 7 a.m. and 11 p.m., including Sundays.

Inquiries respecting the arrival and departure of mail should be made at the office
of Superintendent of Mails.

Inquiries respecting the delivery of mail should be made at the office of the Super-
intendent of Delivery.

The Architecture of Printing

During recent years there has been a gradual but very decided advance in the quality and practical value of the catalogue and advertising matter issued by leading firms. This has been due to the improvements in photo-engraving processes, making possible more truthful and attractive illustrations. An increasing appreciation of the potentiality of the better sort of advertising matter has also been influential in raising the standard. The principal factor, however, in this upward movement has been the rapid development of the designing departments of the leading establishments of the country, and consequent tendency of buyers to seek the advice and cooperation of designers and engravers.

Why should not the business of catalogue, birdseye view, label and other designing be put on the same plane as that of the architect of buildings. Try coming direct to the printer's architect?

We Are Making Money!

Let Us Make Some for You!

While we have no direct interest in the United States Mint in San Francisco, we can magnetize YOUR money by which it will attract mint money, and in proportion to the value and number of pieces which you desire so magnetized. We work in harmony with our Government in upbuilding and therefore value increasing Real Estate. We can refer you to our clients, some money of which we have successfully magnetized.

FOR EXAMPLE—5 per cent. to 12 per cent. net on realty loans, 6 per cent. to 15 per cent. on “flat” investments. Bank interest on “inside” property, value of which is being steadily increased by reason of rapid business expansion. 100 per cent. to 200 per cent. on “wholesale” investments. Sold in units of $1000.

We are on the GROUND FLOOR and have one of the largest and most thoroughly equipped offices in Alameda County. Correspondence solicited. BANK AND CLIENT REFERENCES.

Fifty Dollars Worth of Furniture For One Dollar a Week

THE GREAT CREDIT HOUSE OF ALAMEDA CO.

We have been extending credit to the people of Alameda county for years. Some of the wealthiest people in our vicinity have taken advantage of our longest payment plans. And, too, some of the hardest working folks have bought in the same way.

We believe we are a help to the people—we try to be at least—and want you all to feel that the courtesies of the firm are at the disposal of any earnestly inclined person of this county.

We will help you furnish up your home from kettles and cook stoves to draperies and parlor furniture. We will accept a small deposit and allow you to pay the balance as you can.

It makes no difference whether you earn $6 a week or $60 a week—your credit is good just the same.

Now suppose you fix up that unfurnished room. Why, you can rent it for enough to buy the furniture.

Or, if you board, why not buy your own furniture and save $10 a month by renting unfurnished apartments.

Or perhaps you have a hundred dollars or so and know where you can get a good-sized unfurnished house. We will furnish it up for you and you can rent out some of the rooms and in this way pay for the furniture—a little every month.

It’s easy, it’s sensible, it’s business.

The Satisfaction in Owning a Steinway

The diamond of glass or composition may sparkle ever so brilliantly and still there lacks the satisfaction that goes with the ownership of a real stone.

A piano may have the finish and the looks of the Steinway and still there is lacking the magnetic thrill of satisfaction that goes with the Steinway. There is an indescribable something about the ownership of a Steinway that goes with no other piano. The feeling that an instrument is as good as a Steinway brings no satisfaction, for the mere fact that the Steinway is used as a basis of comparison proves its leadership.

All the great masters of music are devoted to the Steinway. Those who endorsed it most enthusiastically years ago when the Great House was young, have added very recently to their earlier words of commendation.

Lillian Nordica wrote last summer: "I am looking forward with great joy to the arrival of my new Steinway piano. AFTER ALL THERE IS NO OTHER INSTRUMENT IN THE WORLD."

Come to our parlors—try our various makes—select the one that suits you personally the best, and it will be delivered, if you wish, on the payment of a small sum—the rest in monthly amounts so trivial they will never be missed.

Again, don't forget that there is only one PIANOLA recognized the world over as the genuine player, above and beyond all imitations; and don't forget that the sole agents here are

**OFFICE IN THE CREMATORIUM BUILDING**

Howe and Mather Streets, Oakland

Visitors always welcome between the hours of 9 a.m. and 5 p.m.

Ella Wheeler Wilson

"Heartily approve of cremation. In the first place it is cleanly, in the second place it is economical. It helps along nature. The body must eventually turn to dust, and why not turn it thus by cremation rather than have it do so in the ground? Then again, the increase in population and consequently death, must render this mode of disposing of the dead eventually necessary."
One of the finest Columbariums in the world for the reception of ashes. The building is a model of its kind and is as beautiful as money can make it. Thousands of niches are for sale for the benefit of those who wish to have a perpetual resting place for the ashes of their dead, amid appropriate surroundings. Flowers and shrubs are there in abundance to make it as attractive as possible and resting places are fitted up throughout for those who come to visit.

The Hotel Pleasanton, one of the popular public houses in Oakland, has been recently remodeled, completely renovated, and richly furnished throughout, and is now under the management of Mrs. Ellen McKenna, who is the proprietor. It is situated at 1162 Washington Street, Oakland, having a frontage on Fourteenth Street facing the City Hall.

There are two street car lines over Washington and Fourteenth Streets, and it is one block from the principal theatres, and two blocks from the postoffice and Wells Fargo & Co. Fourteenth Street cars come direct from 16th Street Station.

Under the present management it has become the popular resort for the most prominent families and ranks with the leading hotels of Oakland.

It has been the purpose of the management to make this house a pleasant and attractive home and in this connection, a public resort that will be as near an approach to home life as can be under this environment.
